Institute of Internal Auditors – Philippines Centre for Professional Development The Learning Ladder Framework

The Learning Ladder Framework (LLF) is your professional development career plan.

Benefits:

- ✓ For you – the internal audit professional – the LLF defines a skills baseline and creates a career progression training program
- ✓ For your internal audit organisation, the LLF facilitates group skills assessment, benchmarks talent pool, and develop audit talent development and promotion scheme
- ✓ For the internal auditing profession, the LLF assesses key training gaps, and identifies centres of excellence
- ✓ For IIA-Philippines, the LLF sets a baseline for professional development programs

The LLF is aligned with the CIA Examination Content, the Common Body of Knowledge (CBOK) requirement on technical and behavioural skills, and the competencies and knowledge areas indicated in the IA Competency Framework (IACF).

The LLF uses one segment jargon – the Junior Internal Auditor, the Audit Supervisor, Audit Manager, and the Chief Audit Executive – and defines the acceptable level of tenure, responsibility and key skills for each segment progression.

The LLF addresses your evolving roles from Audit Execution, Audit Management to Audit Leadership as you move up the career ladder.

Talk to us and see how the LLF will guide you towards professional growth and personal development.

	Audit Execution	Audit Management	Audit Leadership
Chief Audit Executive			→
Audit Manager			
Audit Supervisor			
Junior internal auditor			

Come, talk with us! The Learning Ladder Framework is a program of the Professional Development Committee and Technical Standards & Research Committee of IIA-P.

To learn more about the Framework, call us at +632-813-2553 and look for Carla Medrano or Benjie Dalusung, visit us at the IIA-P Training Centre, Unit 1807 Cityland Herrera Tower, cor. Valero and Herrera Sts., Salcedo Village, Makati City 1200 Philippines, or email us at training@iia-p.org | www.iia-p.org |

The **Professional Development Committee (ProfDev)** offers a structured pathway for a career in internal auditing, manages the Institutes' Centre for Professional Development, and conducts Professional Certification Reviews, Professional Conferences, and Professional Development Seminars to internal audit professionals, internal audit organisations and related interest parties.

The **Technical Standards & Research Committee (TSRC)** offers thought leadership services in internal auditing by supporting and promoting an Internal Audit Standards Board, a robust Professional Practice, Issues and Quality Review processes, and provide timely and relevant Research and Educational Products. This is the Knowledge Centre of the Institute.
